Calf Hutches

Lower mortality
rate among
young calves

Lower risk
of group infections,
leading to
lower treatment
costs

Animals
housed in **calf
hutches** have
increased immunity to
disease, are healthier
and gain weight more
quickly after
weaning

A NEW METHOD OF BREEDING HEALTHY CALVES
A PROFITABLE INVESTMENT FOR THE FUTURE

ADVANTAGES OF CALF HUTCHES

- Strong and rigid construction resulting from the use of high quality raw materials and modern production technologies.
- Easy to keep clean.
- Equipped with adjustable air vents to ensure proper air circulation inside the hutch ①.
- Available in two sizes.
- Possibility to enlarge the entrance ②.
- Hutches nest and stack. This minimises storage space required when not in use and leads to reduced transport costs.
- Possible to fix to the ground (after drilling a hole in each corner).
- 5 year warranty*.

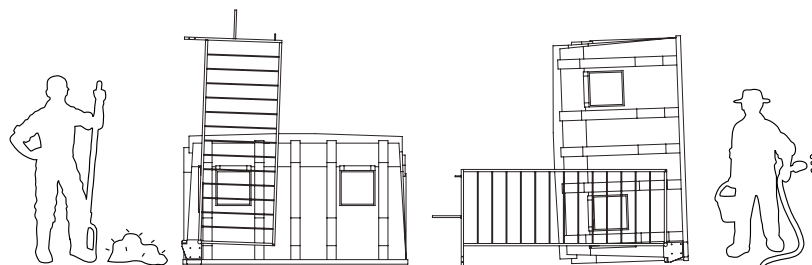

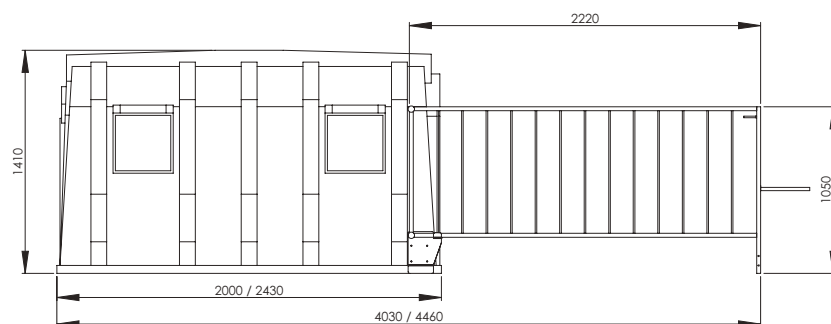

BENEFITS OF USING CALF HUTCHES

- Lower mortality rate among young calves.
- Lower risk of group infections, leading to lower treatment costs.
- Animals housed in Kingspan Environmental calf hutches have increased immunity to disease, are healthier and gain weight more quickly after weaning.

OPTIONAL EQUIPMENT

- Closable windows (up to four per hutch) to increase air circulation (code ACW00430SW).
- Robust galvanised steel fencing with gate and bucket holders (code ACF00300) ③.

*The warranty applies to the product used in a manner consistent with manufacturer's recommendations.

	Code	Length** [mm]	Width [mm]	Height [mm]
Small hutch	ACH02000SW	2000 (4030)	1450	1410
Big hutch	ACH02430SW	2430 (4460)	1450	1410
Fence	ACF02220	2220	1440	1050
Window	ACW00430SW	-	400	470
Bucket holder	ACF00300			

Dimensions may vary by +/- 1%.

** In brackets is the combined length of the hutch and fencing.
